

I am a listener of K-LOVE radio. I listen quite a bit during the day...the message and music refresh me in this hectic world we live in. I would be extremely upset if K-LOVE were replaced by a LPFM station and I were unable to receive the stations signal. I also believe that the broadcasting that K-LOVE radio does is a great tool for people who are searching for something to help them cope with life...that the message that Jesus brought us is one of hope and encouragement that all of us need. The station is not an "in your face" you are damned station, but a quiet, loving message from a loving redeemer. I strongly feel that this is one of the ways that we can and do reach people who are in need of Jesus.

Sincerely, Carol Holzman
